# Four Main Activities

Urban Transport Community of Practice

Twinning Program

East African Urban Mobility Institutional Assessment

Just in time/tactical on-demand assistance to cities to accelerate their urban mobility programs

# The Results Achieved (1)

Tailored LUTP workshop in Kigali delivered with more than 50 practitioners from four Eastern Africa cities.

Community of AFE urban mobility practitioners formed. The LUTP workshop participants continued exchanging experiences and information.

High-level decision makers in AFE cities urban mobility development learned good practice of Korean urban transport development and cutting- edge technologies and were able to localize insights for their cities.

# The Results Achieved (2)

Technical assistance enhanced World Bank urban mobility projects design and readiness: Rwanda and Kampala urban mobility projects;

Application of good practices learned to local urban mobility development: urban transport planning, TOD, e-mobility, ITS, etc.

Enhanced capacity of urban transport agencies via learning supported by KOTI

Potential collaboration with Korean Development Partners, e.g., KEXIM bank for co-financing
