**Green Growth:  
The Path to  
Sustainable Jobs**
**Korea Green Innovation Days  
October 20–22, 2025  
Washington, D.C., USA**

### Day 3. Breakout Session

### Session 3-5 AI and Digital Infrastructure for Sustainable and Resilient Development

#### Speaker Bios

**Casey Torgusson**, Practice Manager, DTFC, The World Bank

Casey Torgusson is the Global Program Manager for Digital Development with the World Bank. He manages a team of experts leading the Bank's research and applied knowledge work across the unit's primary business lines including broadband access and use, data infrastructure, ICT industry and jobs, digital safeguards, digital and climate change, as well as adoption of digital technology within key sectors. He previously led a range of technical assistance, policy reform and investment operations which have supported governments across the Africa, Latin America and the Caribbean, and East and Central Europe regions to achieve their digital transformation and digital economy development ambitions. He is the author of several reports on Digital Economy Development and Digital Market Integration in East Africa and previously co-led the Bank's Digital and Climate Community of Practice.

**Munkyoung Park (Lucine)**, Digital Specialist, Digital Transformation, The World Bank

Lucine Munkyoung Park is a Digital Specialist at the World Bank, co-leading the Western Africa Regional Digital Integration Program (WARDIP) across its first and second phases. She previously oversaw the flagship Digital Economy for Africa (DE4A) initiative, bridging sectors and shaping collaboration across the World Bank Group to accelerate digital transformation across the continent. Her work brings together technology, policy, and finance to expand connectivity, strengthen data systems, and enable digital skills for jobs and inclusive growth—while supporting other sectors' digitalization efforts such as agriculture and energy. With over 10 years of experience, Lucine advises governments on building the foundations of resilient, inclusive digital economies. She holds an M.A. in International Economics and International Relations from Johns Hopkins University's School of Advanced International Studies (SAIS) and a B.A. in International Relations from Seoul National University.
