+

04

As a Lecturer

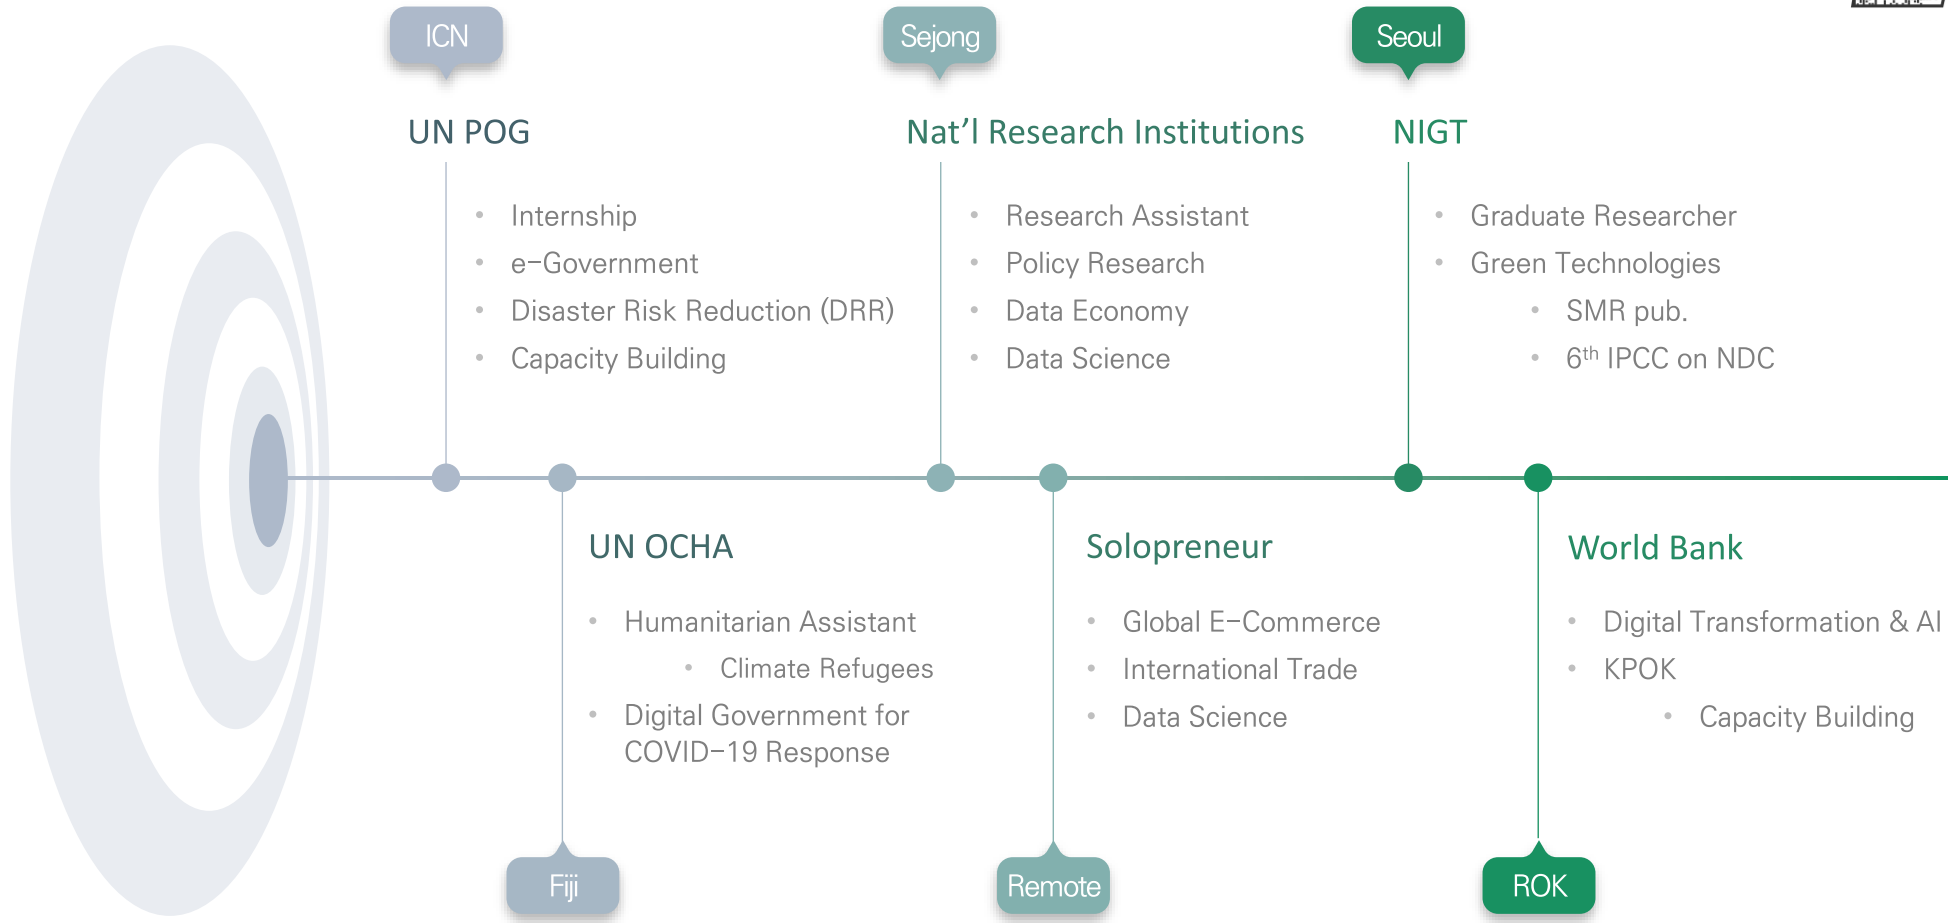

- Incheon National University
 - College of Public Affairs
- 2025 Human Asia – Human rights Workshop

Bridging the Gap from Junior-level Perspective

Career Path

Journey on Green Nexus

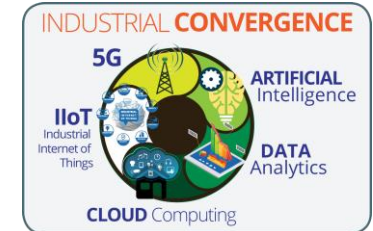

Challenges

What we're facing

01

Technical Expertise

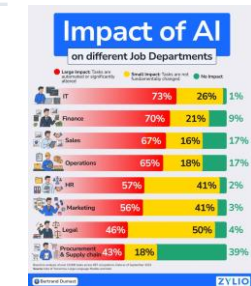

- Traditional '**Generalist ↔ Specialist**' is being old, and the border is getting blurred due to AI
 - Paradigm shift into 'Convergence' than 'Advancement'
 - How to adapt with daily changes in trend
- Solopreneur, Micro Influencer, Personal Branding, etc.,

02

Job Market Change

- Severely decreasing ENTRY-level recruitment
- Companies no more ensure employee's growth
- Micro-minimization of hierarchical organization

03

AI Transition

- AI has increased productivity "dramatically" → Diminishing space for the youth newbies
- BOK analyzed 98.6% of youth job losses occurred in industries with high AI exposure
- But the problem is we cannot beat AI, NEVER

Solution

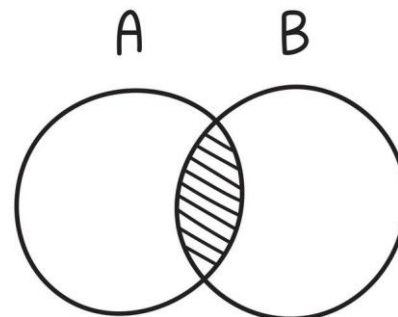

From my past

Q: “How to explore my expertise to survive?”

Make dish by your own ingredients extracted past experiences

A: “Write Own Unique Storytelling”

Convergence
Intersection
10% rule

Expertise

Not found, but made

Storytelling through history of your identity

Experience → Motivation

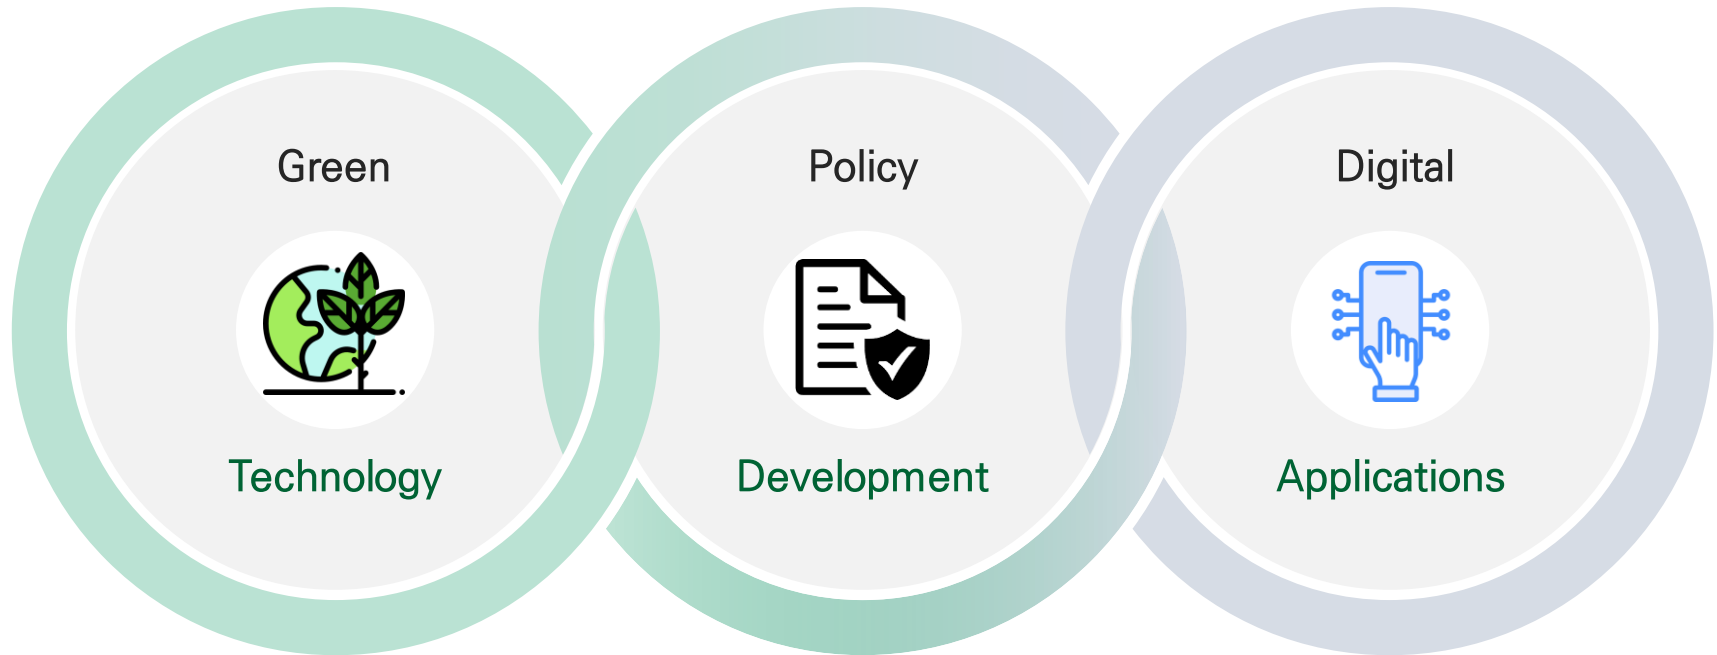

Pros and Cons

NOT Deductive,
BUT Inductive

b/w Custom ↔ Change

Convergence

Integration of differences

In other words,

Interdisciplinary

Cross-cutting

Hybrid

Transversal

Example

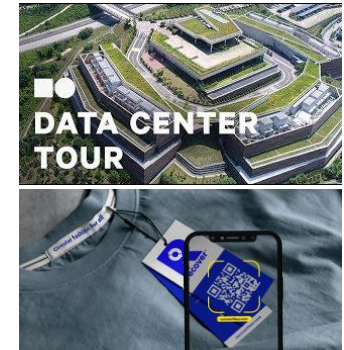

Brief case study

01
Green-Digital
Nexus

• Consultant, World Bank

- Digital Transformation & AI Vice Presidency Unit
 - Green Data Center
 - Climate Resilience for Digital System
- Korea Program for Operational Knowledge (KPOK)
 - Digital uses for Green Growth across sectors

02
Data
Analysis

While I graduated **Master of Public Policy (MPP)**,
concentrating on **'Data Science for Public Policy and Mngt'**
→ The skill lays foundation of research-related opportunities
+ higher understanding of data ecosystem inc. AI

03
Digital for
COVID-19

My duties at **UN OCHA** in Fiji was designated for

- Humanitarian Response → Information Mngt.

Due to COVID-19, this change made me motivated for cross-cutting agendas and the convergence of them.

Steps

What should I do?

1 Step

- Collecting all the ingredient throughout your life
- Focusing on the things made you motivated or expanding own perspectives (Inductive)

2 Step

- Finding the intersections – connecting the dots to find unique spaces comparatively
- Listening to voices letting you know what's pros and cons

3 Step

- Accumulating relevant experiences as much as
- Articulating how to deliver it

Unique Expertise

Being top 10% of the niche market

“Study the past first if you would define the future” by Confucius
