World Bank Group: Driving Development, Reducing Poverty

Developing countries must create **hundreds of millions of jobs** in the next decade.

Job creation is the World Bank Group's highest priority.

WE HELP BY

- **Investing in infrastructure, health, and education** to set the preconditions for jobs
- **Supporting policy and regulatory reforms** that businesses need to thrive
- **Mobilizing private capital at scale**, crowding in investors and building more resilient local firms.

Ecosystem of Job Creation

- 1 Build Foundational Infrastructure**
 - Physical (clean air and water, transportation, energy)
 - Human (health, education, skilling, social protection systems)
- 2 Strengthen Governance and the Regulatory Environment**
 - Streamline regulation
 - Cut unnecessary red tape to create predictable business environments
- 3 Mobilize Private Capital**
 - Provide loans, equity, guarantees and political risk insurance to help crowd in private investors
 - Resolve international investment disputes

IFC explained

Founding Vision:

The private sector is essential to development

- Creating jobs
- Raising living standards
- Building a better future

WHAT IS

IFC?

IFC 2030 Strategy

Building Blocks 1 and 2

1

Enhanced Origination and Mobilization

Origination focused on distribution, coupled with strong mobilization capabilities

2

Scaling Up Equity Investments

Equity as a key mobilization instrument and multiplier of capital, innovation, and jobs

Building Blocks 3 and 4

3

Revamped Support
for MSMEs

Ramp up support to MSMEs through financial institutions, non-traditional platforms, and direct financing

4

Different Ways of
Working and New Skills

Closer coordination between IFC and World Bank teams, with stronger and more integrated industry knowledge.
