

15th Korea Green Innovation Days
May 6 – 8, 2026
Sejong, South Korea

Day 1. Breakout Session

Youth Session | Shaping the Next Generation of Climate Solutions

Speakers Bios

Taeho Kim, Consultant, KPOK & Digital Transformation, World Bank Group

Taeho Kim is a Consultant at World Bank Group Korea Office, driving digital transformation and green technology adoption at global level. Drawing on experience at UN, NIGT, and KDI School, he translates Korean innovation insights into replicable cutting-edge policies with sustainable growth in emerging markets.

Chanmi Kim, 2025 KGGTF Youth Internship Program (YIP) Alumni & Master's student at KAIST's GGGs (Graduate School of Green Growth and Sustainability)

Chanmi Kim is a Master's student at KAIST's GGGs (Graduate School of Green Growth and Sustainability), working at the intersection of climate policy, discourse, and urban sustainability. Building on her experience in international development, including an internship at the World Bank KGGTF (Korea Green Growth Trust Fund), she explores pathways for sustainable and inclusive growth.

Jihye Kang, 2026 KGGTF Youth Internship Program (YIP) Intern & Researcher at the Daegu Carbon Neutrality Center

Jihye Kang is a Researcher at the Daegu Carbon Neutrality Center with a background in Earth and Environmental Sciences, bringing hands-on field experience in marine and environmental research alongside policy work at the World Bank KGGTF, UNESCO IOC, and NIGT, focusing on climate policy and green growth.
