

15th Korea Green Innovation Days
May 6 – 8, 2026
Sejong, South Korea

Day 2. Breakout Session

Parallel Financing Session | From Pilots to Scale: Aligning ODA, R&D, and Investment for Greater Impact

Speakers Bios

Hanna Kang, Senior Researcher, National Institute of Green Technology (NIGT)

Dr. Kang is a dedicated researcher whose primary focus lies in policy development and evaluation aimed at fostering green financing linkages. Her research expertise spans a diverse array of fields, encompassing sustainable urban transition and international development cooperation. She holds her doctoral degree in environmental urban development from Technische Universität Dresden in Germany.

Yisol Go, Senior Manager, Korea Meteorological Institute (KMI)

She works on international cooperation and project development in the meteorological sector. Her work involves coordinating and implementing international initiatives in collaboration with government agencies, multilateral organizations, and technical institutions. Her focus is on delivering meteorological solutions tailored to partner countries' needs, contributing to climate resilience and disaster risk reduction.

Jeongha Jeong, Assistant Manager, Global Project Office in Korea Rural Community Corporation (KRC)

She supports the implementation of agricultural and rural development projects under Korea's Official Development Assistance programs, led by the Ministry of Agriculture, Food and Rural Affairs(MAFRA). She has experience in project planning, feasibility studies, and stakeholder coordination across partner countries, contributing to sustainable rural infrastructure and value chain development initiatives.

Moonbin Jeong, Researcher, Korea Research Center for Overseas Construction (KRC), International Contractors Association of Korea (ICAK)

Moonbin (Diego) Jeong is a Researcher at the Korea Research Center for Overseas Construction, the policy research arm of the International Contractors Association of Korea (ICAK). His work focuses on overseas construction policy and project finance, including PPP structures, as well as cooperation with international financial institutions. He has contributed to policy research with Korean public institutions and multilateral development banks. He specializes in MDB cooperation and infrastructure markets, with a regional focus on Latin America.
