

Korea Development Institute

- KSP, EIPP and Global Partnership

Dr. Daeyong Kim

Director for Development Research

Center for International Development (CID)

Korea Development Institute (KDI)

KGID CAIRO

Introduction

Since the institute's founding in **1971**, KDI has established a long history of delivering rigorous research and leading the public policy discourse. The institute has continuously expanded its scope of research including **macroeconomic** and **fiscal policy**, **finance**, **social security** and **welfare**, **labor**, **industry**, **trade**, **land** and **infrastructure**, **market reform**, and the **North Korean economy**.

A World's Leading Think Tank

Global Knowledge Network

Introduction

Center for International Development (CID) is dedicated to the enhancement of development cooperation by providing policy consultation and sharing in-depth regional and sectoral research output.

Our Work

RESEARCH

Conducts diverse research projects to produce and share policy insights based on in-depth analysis

KNOWLEDGE SHARING PROGRAM

*

ECONOMIC INNOVATION PARTNERSHIP PROGRAM

Serves as the platform for delivering customized policy recommendations

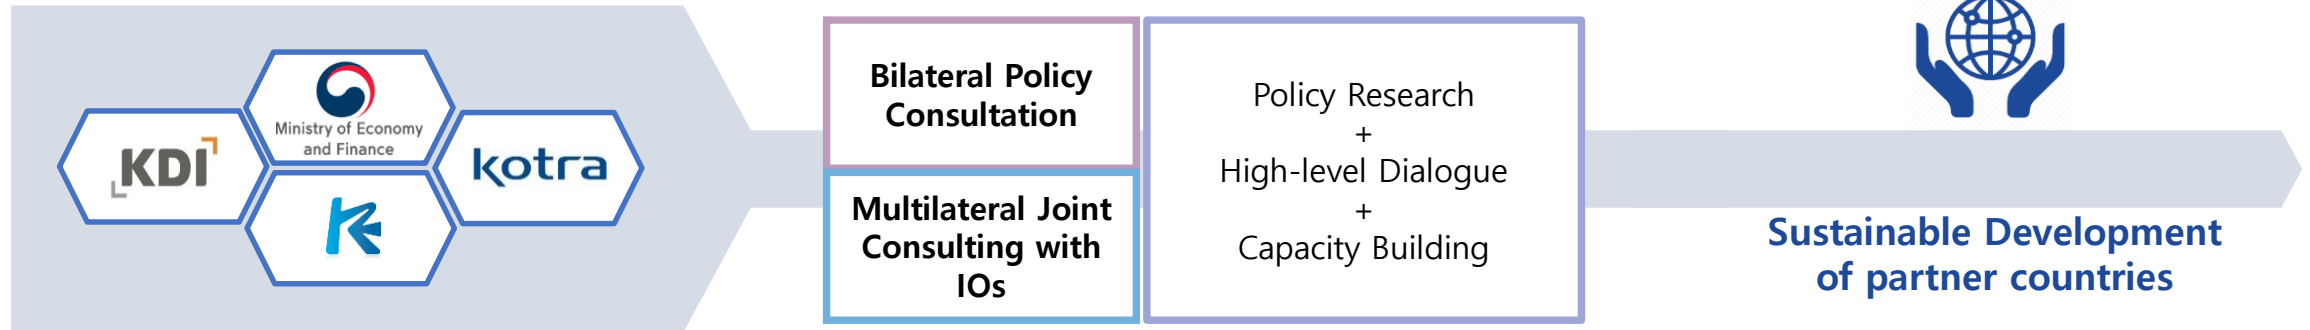

GLOBAL PARTNERSHIP

Executes projects commissioned by international organizations and partner country governments

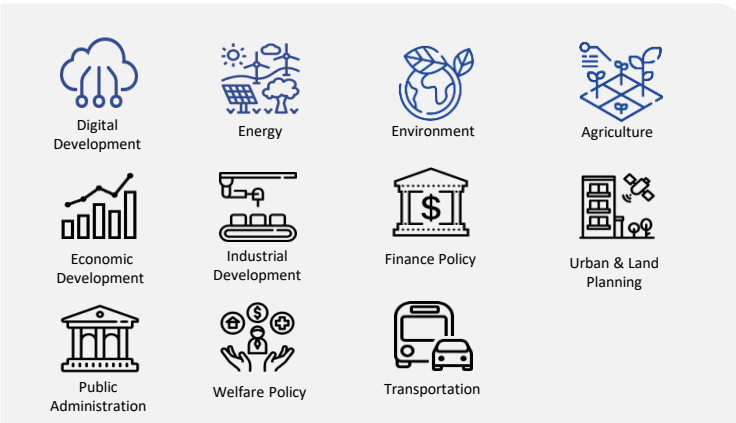

Knowledge Sharing Program: Overview

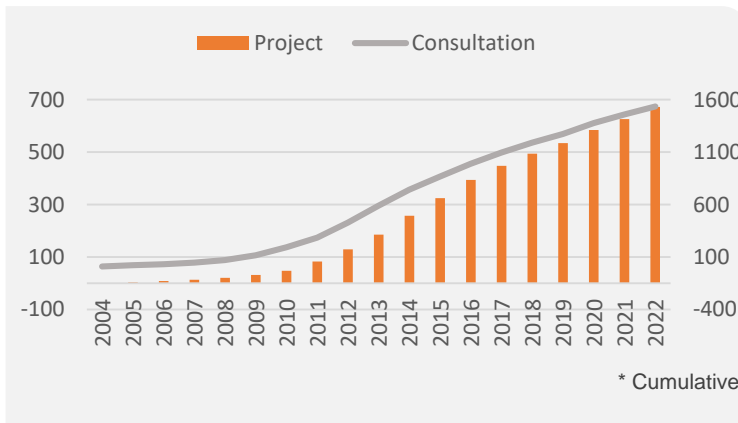

KSP is **Knowledge-intensive development and economic cooperation initiative**, launched in 2004. Ministry of Economy and Finance of Korea (MOEF) has financed and administrated the KSP, while KDI, KEXIM Bank and KOTRA has planned and implemented KSP projects.

KSP covers a wide range of socioeconomic development policy issues faced by partner countries

KSP has conducted more than **1,500** Consultations in **670** Projects (2004-2022/23)

KSP has a collaborative network involving **92** partner countries and **12** international organizations.

03 Highlight Key Projects

APO Productivity Outlook Series (2021~ present)

The APO and KDI conducts an annual study on the outlook for sectoral productivity. The APO Productivity Outlook publication provides in-depth insights on productivity prospects in key sectors to member governments. Cross-country comparative analyses of factors, levels, and growth rates of sectoral productivity are included.

Policy Note for Infrastructure Services for LAC (2019)

Table of Contents

1. Overview
2. Waste management policy note
3. Transportation policy note
4. Energy policy note
5. Water management policy note

The KDI, in collaboration with IDB, conducted a technical cooperation project to improve the quality of infrastructure and infrastructure services in LAC. The project's main objective was to identify and disseminate knowledge relevant to LAC based on the Korean experience in: i) policy frameworks used to manage infrastructure projects, especially in transportation, water and sanitation, and electricity; and ii) the use of technology to measure the efficiency of infrastructure projects.
